

# TM STEELS MANAGEMENT SYSTEMS

Document Title **Environmental Policy** Document Ref. **EN02** Revision **2** Document Date **01.04.2023**

TM STEELS LIMITED is a professional and environmentally conscious organisation, which acknowledges the impact that our operations may potentially have on the environment. The clear objective of TM STEELS LIMITED is to minimise any impact on the environment by:

- Preventing pollution, reducing waste and ensuring, wherever practicable, that measures are implemented to protect and preserve natural habitats, flora and fauna
- Considering the effects that our operations may have on the local community
- Taking action to eliminate or reduce, as far as practicable, any potentially adverse environmental impacts
- Promoting environmental awareness amongst our suppliers, contractors and partners by implementation of operational procedures
- Seeking to work in partnership with the community by behaving in a considerate and socially responsible manner
- Ensuring effective and expedient incident control, investigation and reporting.

Managerial and supervisory staff have responsibilities for the implementation of the policy and must ensure that environmental issues are given adequate consideration in the planning and day-to-day supervision of all work.

The company will fully comply with the duties placed upon it within the requirements of legislation, whilst at all times complying with, as a matter of best practice, the requirements and duties set out within Approved Guidance as issued by the Environment Agency and other organisations. As part of the company's commitment to maintaining the highest levels of environmental management, it is the intention that the company will work towards environmental management systems sufficient to comply with the principal legislation affecting the company.

- The Health Act 2006
- Environment Act 1995
- Environmental Protection Act 1990
- Environmental Protection (Duty of Care) Regulations 1991
- Hazardous Waste Regulations 2005
- The Landfill Directive (Council Directive 1999/31/EC)
- Waste Management Licensing Regulations 1994
- Controlled Waste (Registration of Carriers and Seizure of Vehicles) Regulations 1991 (Amended 1998).
- Groundwater Regulations 2009
- The Clean Air Act 1993
- Waste Electrical and Electronic Equipment (**WEEE**) Regulations 2006
- Control of Pollution (Oil Storage)(England) Regulations 2001.

All employees and sub-contractors are expected to co-operate and assist in the implementation of this policy, whilst ensuring that their own works, so far as is reasonably practicable, are carried out without risk to themselves, others or the environment.

Registered Office: TM Steels LTD, Sheepbridge Works, Dunston Road, Chesterfield, UK, S41 90D

Tel: +44 (0) 1246 268312 | sales@tmsteels.co.uk | export@tmsteels.co.uk

Registered in England: 03523526 | VAT: GB 706261457

This includes co-operating with management on any environment related matter.

TM STEELS LIMITED will take all practical steps to ensure that potential hazards and risks to the environment are identified and that suitable and effective preventive and control measures are implemented. All employees will be provided with the necessary resources, equipment, information, instruction and training to fulfill the requirements of this policy.

The directors have overall responsibility for all environmental matters. The operation of this policy and the associated procedures will be monitored and reviewed on a regular basis to ensure that they remain current and applicable to the company's activities. This policy has been endorsed by the board of directors which gives its full support to its implementation.

Additional controls: -

Litter will only be disposed of at the company's waste bins. As far as is possible this will be sorted into paper, plastic, glass etc. for re-cycling purposes.

Waste oils will be separated and stored in containers to be returned to the specialist waste collection company for re-processing. Particular attention will be paid to waste storage drums at the depot and the bund will be inspected regularly.

All vehicle engines will be switched off at all times possible to minimise the discharging of diesel fumes.
